

I, Pete Geiger, respectfully urge the FCC to reject the NAB's petition 04-160 to restrict XM or any satellite radios service. XM has the right, under the first amendment to provide this programming. I chose to pay for the XM service because I was tired of listening to constant babble of commercials on the local radio stations. XM gives me the choice to turn to the weather or traffic and get the information I want, without having to suffer through the tirade commercials. I realize the radio stations need commercials to pay for their operations, but when there are more commercials than listening pleasure I turn it off or, as I did, pay for a service that provides me what I'm looking for.

Thank you.
